

# SafetyNet Analytics

## Group

Team members: Roland “Coy” Abellano (Data Cleansing Manager), Anushya Mani (Data Transformer), Jimmy Nguyen (Data Analytics Consultant), Michael Jardinico (Market Research Analyst), Diahann Castellon (Cause & Correlation Scientist), & Brandon Ingalz (Project Manager)

# Project Scope

- This project was inspired by an article that discusses the 15 most safest neighborhoods in SF
- Analyzing geospatial data involving criminal activities in SF's 41 neighborhoods
- Evaluation of current & potential future residences
- Use data-driven insights on which areas have both the highest & lowest crime occurrences
- Reveal crime-related trends over a 5 year period with specific timeframes

# Parameter Considerations Based on Research

- **Source:** San Francisco Police Department Crime Dataset (2018 -2023)
- **Original Crime Types:** 840 categories
- **Original Number of Crimes:** 728,837 reported cases
- **Data Refinement:**
  - Cleaned for accuracy
  - Removed inconsistencies & irrelevant data
- **Transformed into Six Categories :**
  - Violent Crime
  - Property Crime
  - White Collar Crime
  - Drug & Alcohol Crime
  - Hate Crime
  - Quality of Life Crime

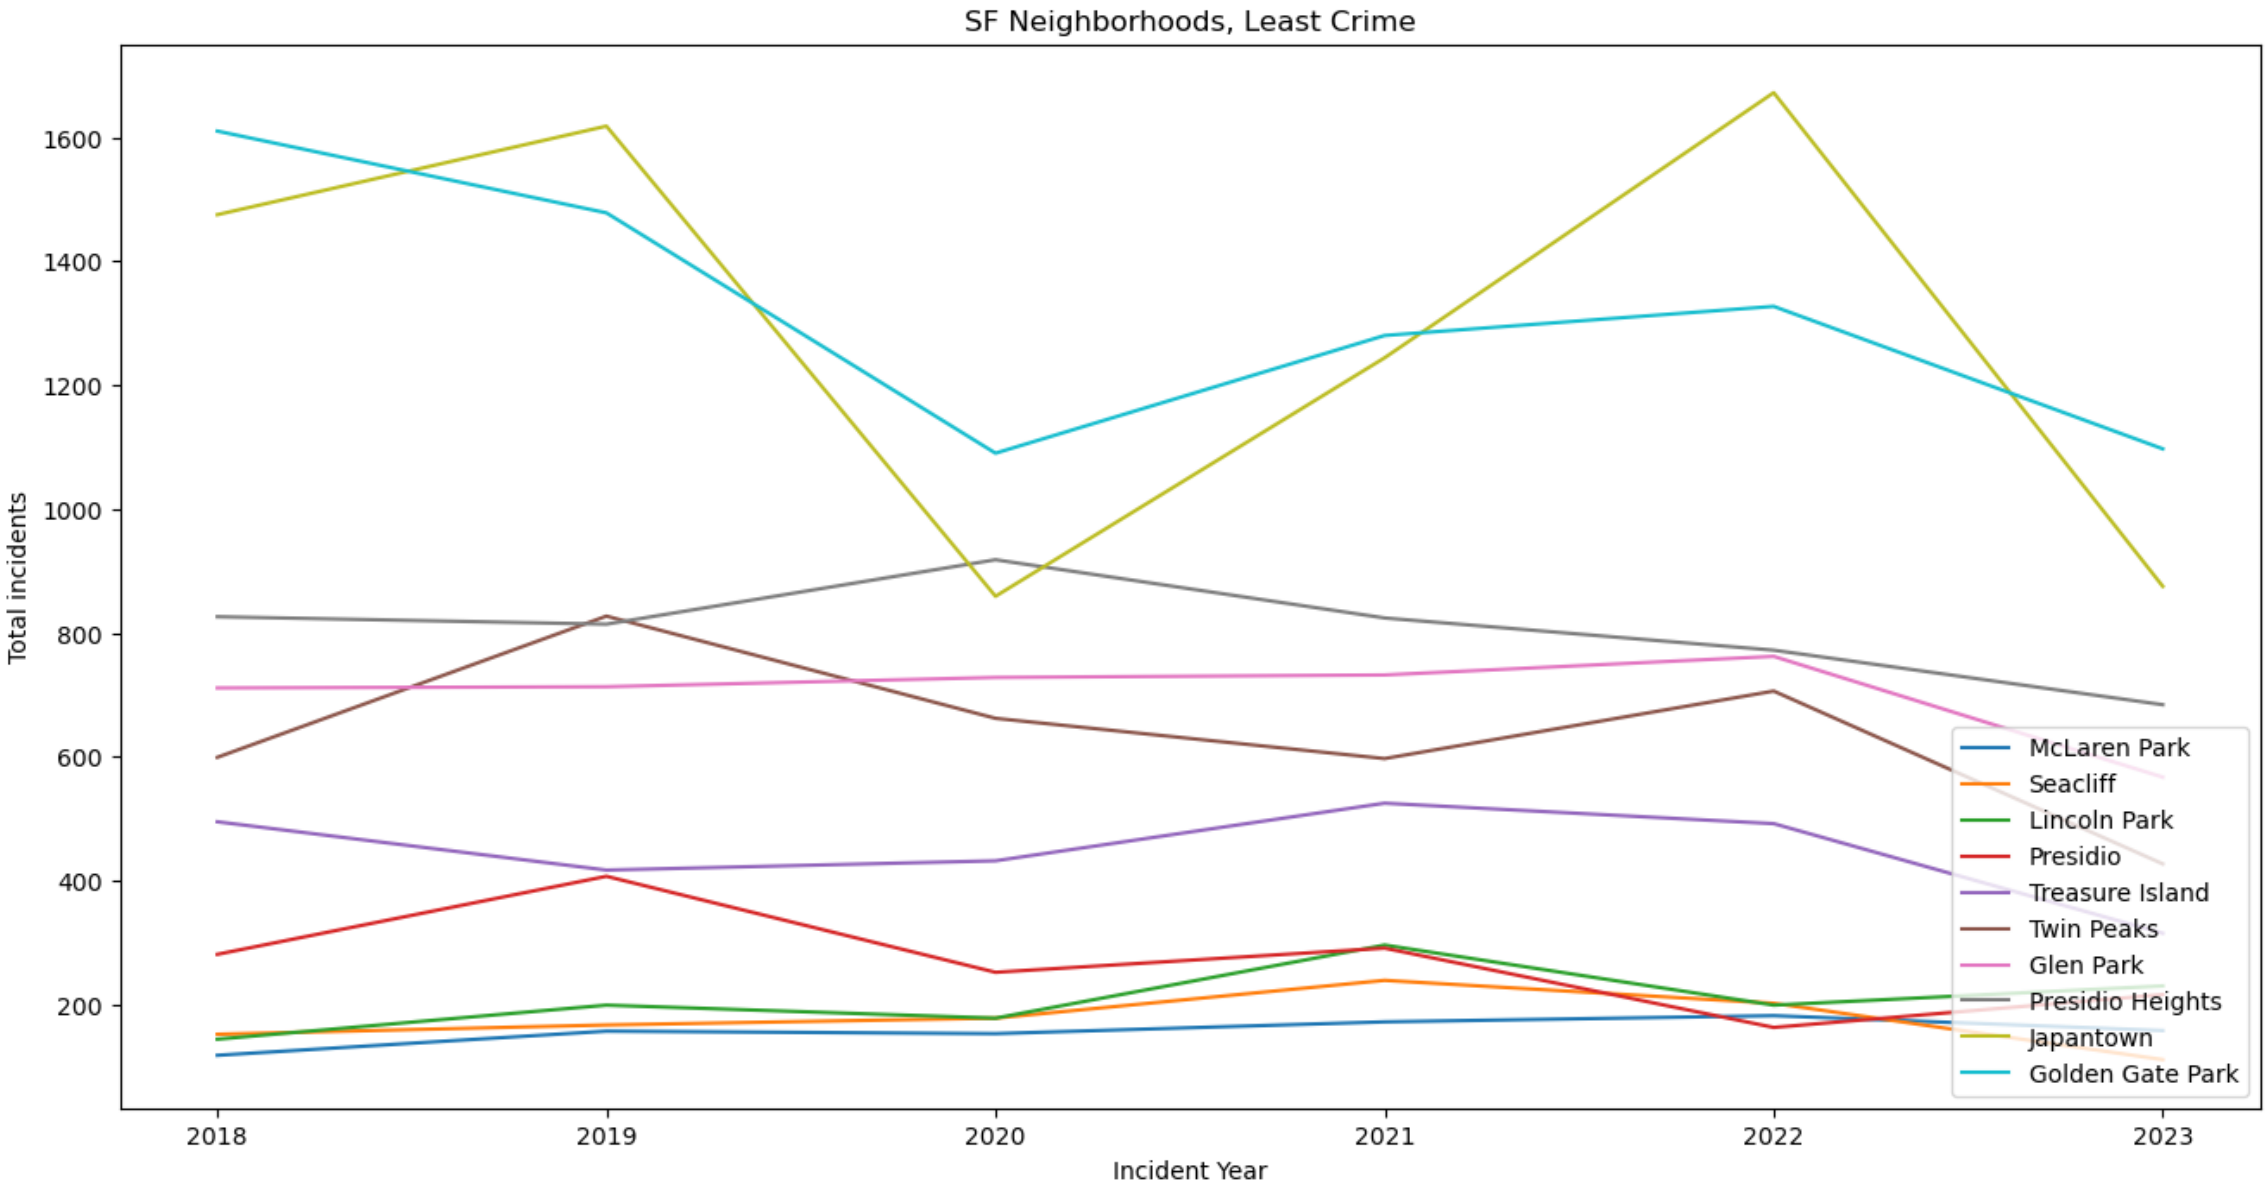

# Total Incidents by Crime Type 2018-2023

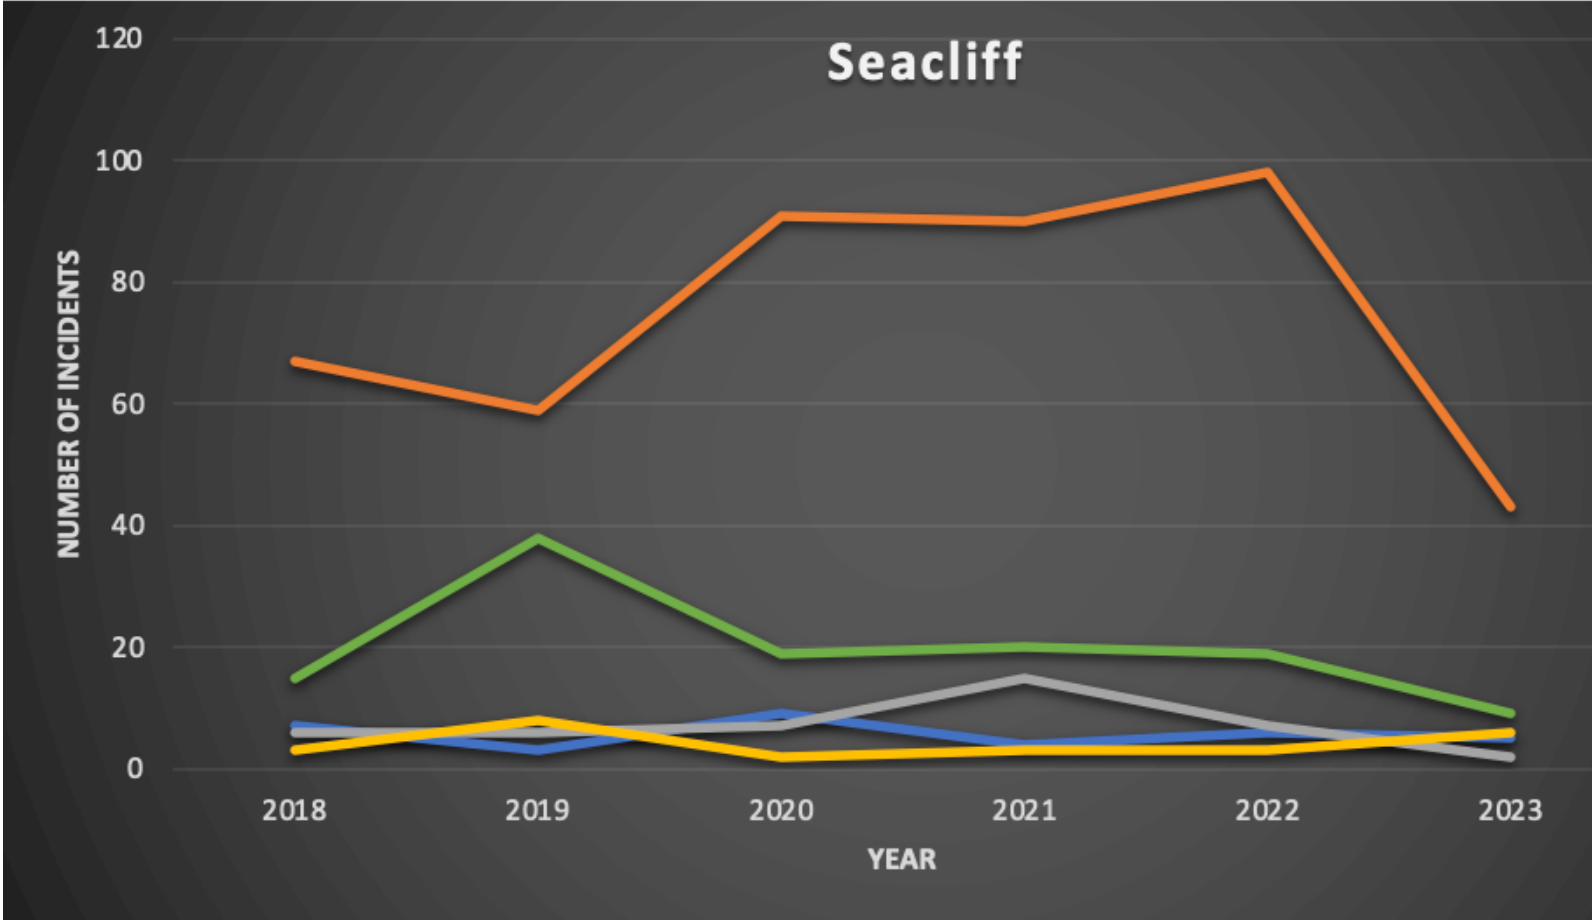

# Comparison of Best & Worst Rankings (Article vs. SafetyNet)

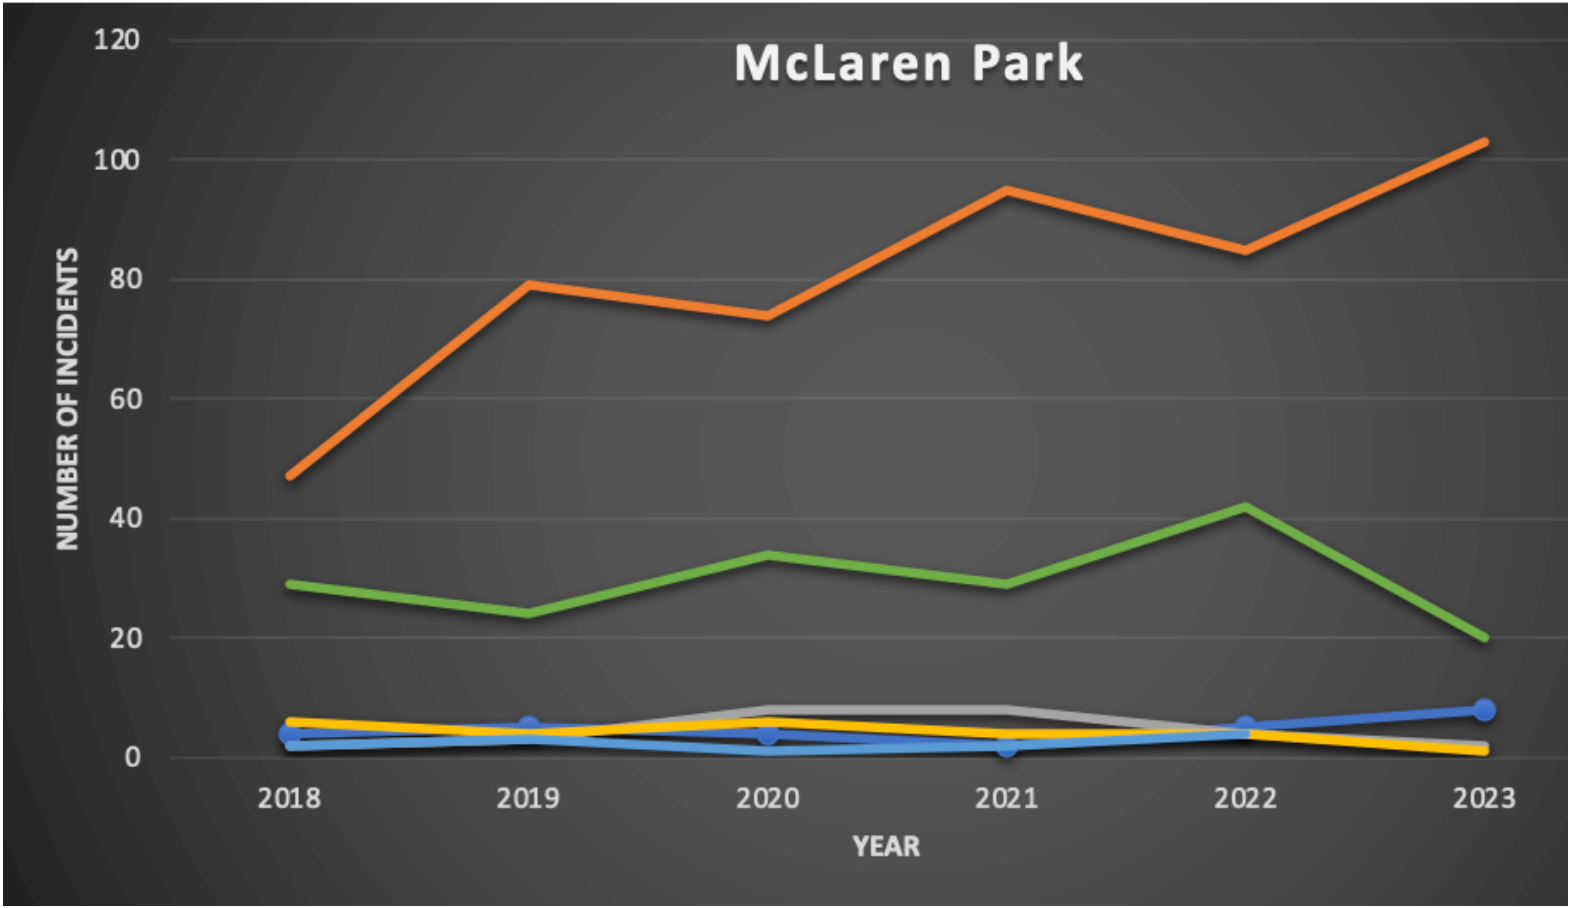

Ranking	Top - Per Article	Top- Per SafetyNet	Worst- Per SafetyNet
1	Outer Sunset	McLaren Park	Mission
2	McLaren Park	Seacliff	Tenderloin
3	Inner Sunset	Lincoln Park	South of Market
4	Ocean View	Presidio	Financial District/South Beach
5	Noe Valley	Treasure Island	Bayview Hunters Point
6	Outer Richmond	Twin Peaks	North Beach
7	Seacliff	Glen Park	Western Addition
8	Excelsior	Presidio Heights	Sunset/Parkside
9	Pacific Heights	Japantown	Castro/Upper Market
10	Lower Nob Hill	Golden Gate Park	Nob Hill
11	Marina	Oceanview/ Merced/Ingleside	Marina
12	Financial District	Noe Valley	Hayes Valley
13	North Beach	Vistacion Valley	Russian Hill
14	Chinatown	Portola	Outer Richmond

"McLaren Park in  
Crocker-Amazon?"

Isn't that where  
gangbangers  
dump  
DEAD BODIES?"

# Crocker Amazon is the Safest District in SF

- Crocker-Amazon
    - **133 reported incidents**
    - **0 violent crimes**
  - Mission District
    - **9093 reported incidents**
    - **689 violent crimes**
    - **5057 property crimes**
- 

# Next Steps

*If given more time and resources, SafetyNet would...*

- Include other aspects living conditions: Population, income, access to public amenities, geography, etc.
- Run Hypothesis testing on data sets that eliminates or confirms impact of identified variables
  - Examples: Correlation between population ethnicity and income
- Correlate identified trends with major events (e.g. covid, market crashes, etc.) to identify potential causes of safety disruptions

- SafetyNet's conclusions around SF neighborhood safety is based on crime. However, there are other variables such as security/police presence, city planning, etc. that should be considered before drawing conclusions.
- The team acknowledges that 2023 isn't over yet. The number of crimes recorded by the end of the year could increase by ~15% - 20% based on when the data was pulled.
- SafetyNet's categorization of crime did not include all reported incidents and may differ from other sources. The conclusions in this presentation are based on the team's assessment and definition of safety.
- The geographical boundaries and names of neighborhoods in SF can be fluid and may have changed over the course of the 5 years included in SafetyNet's analysis
